

# **FEMME FUSION**

Strong women strong world

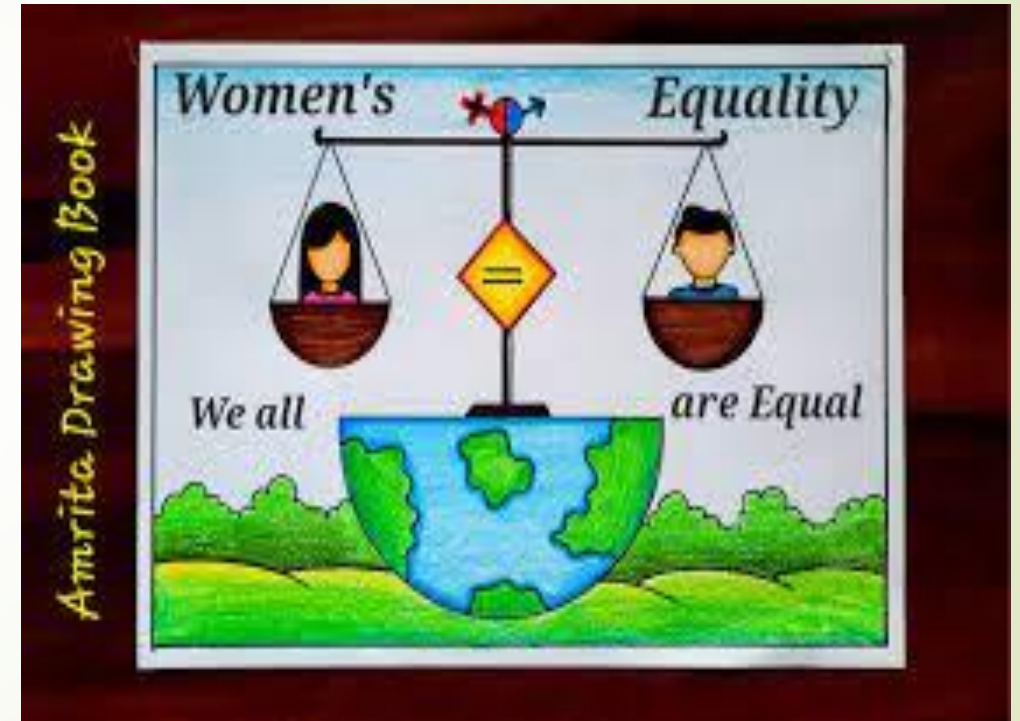

# Introduction to women empowerment

- Women's empowerment refers to the process of enabling women to have control over their lives and make decisions that affect them.
- It involves increasing their access to resources and opportunities, such as education, employment, and healthcare.
- as well as promoting their participation in decision-making processes at all levels of society.
- Women's empowerment is essential for achieving gender equality and promoting sustainable development.
- It benefits not only women themselves but also their families, communities, and societies as a whole.

# Need for women empowerment

- **GENDER EQUALITY\***: Women's empowerment is essential for achieving gender equality, which is a fundamental human right and a necessary foundation for a peaceful, prosperous, and sustainable world.
- **\*ECONOMIC DEVELOPMENT\***: Empowering women economically can lead to increased productivity, economic growth, and poverty reduction.
- **HEALTH AND WELL BEING**: Empowering women can improve the health and well-being of families and communities.
